

Staff Wellbeing: SAS (Schools Advisory Service)

All physical and mental health support provided to staff is designed to help your school prevent and reduce absences. Every aspect of the wellbeing wheel is included in our SAS staff absence insurance policies at no additional cost to the school or staff member.

At SAS, we believe prevention is better than cure

Staff do not need to be absent from work to access our confidential physical and mental health services.

In 2019/20,
SAS spent over £4million on wellbeing services. No other staff absence provider invests as much in wellbeing services as Schools Advisory Service.
